

TecART / Relay Single Channel 2.5K

DIMMERS AND POWER DISTRIBUTION

The Relay Single Channel 2.5K is an Australian designed and manufactured high performance contactor for the professional entertainment and production market. A number of options are available, the main option being the inclusion of an LED display and keypad, to enable extended functionality. The unit has a switch for local activation or the option of DMX control.

FEATURES

- Thermal-magnetic circuit breaker protection of outputs.
- DMX status LED.
- DMX-512 control.
- Single phase operation.
- Supplied with standard 10A outlet and power feed cable.
