

TecART | ROSCO / LED Panel MIX
LED LIGHTING - PANEL

The MIX range includes two sizes of RGB LED panels. Lightweight and portable, they are designed to be used anywhere and everywhere. The panels have white, colour and gel modes that are custom controllable.

FEATURES

- White mode allows access to a wide range of tunable white light from 1700K to 10000K, including precise green/magenta correction.
- Colour mode allows adjustment of colour hue, saturation and intensity with the ability to desaturate colours to several white colour temperatures.
- Gel mode allows selection of a ROSCO gel from a vast gel library and even the ability modify the gel's hue, saturation, and green/magenta shift as needed.
- Communication protocols available include proprietary Mix Communication Protocol via Bluetooth with the myMIX app, DMX 512 (with RDM) via XLR-5 or wireless CRMX by LumenRadio (Timo FX transceiver) and ArtNet via LAN (RJ45) and WiFi.

SPECIFICATIONS

- **CRI (Color Rendering Index) rating:** > 95.
- **TCLI rating:** > 90.
- **Colour Temperature:** 1700°K to 10,000°K
- **Size:** 585mm x 205mm x 37mm (Mini), 1118mm x 205mm x 37mm (SLI).
- **Weight:** 2.56kg (Mini), 4.18kg (SLI).
