

TecART / LED Segment Dual Colour
LED LIGHTING - MAT, SEGMENT AND TAPE

The LED Segment Dual Colour is a powerful lightweight high CRI LED tile. It can be mounted using the included double-sided adhesive. The 1 FT x 2 FT segment features 288 cool and 288 warm white LEDs, with power consumption of 100 watts. When driven by our hybrid LED controller, the user can control both the brightness and white colour temperature of the tile. It can be set to 12V or 24V operation.

SPECIFICATIONS

- **CRI (Color Rendering Index) rating:** 95.
- **Colour temperature:** 2800-7500K.
