

/ LED Wand RGB

LED LIGHTING - TUBE

The RGB hand held LED wand combines three modes in one handheld wand. The wand has hard light, soft light and colour light options, with a full range of colour combinations available. With a CRI rating of 95, the wand provides accurate colour rendition. The light runs on an included mains power adaptor, but can also run on a separately purchased battery.

FEATURES

- Five lighting modes – bi-colour, RGB, dimmable, flashing and colour cycle.
- Control knobs to dial brightness, white colour temperature and in RGB mode, hue.
- Built-in special effect modes.
- Can be controlled through a mobile app with the NanGuang Wi-Fi control.
